

FIELDWORK STUDIO

Landscape Architecture / Urban Design / Planning

Master qualifications 2026

Austin + Dallas, Texas

Founded in 2008. A 47-person practice working across public landscapes, campuses and the urban fabric.

Selected experience and project index
Issued by Marketing and Practice Operations
Document FW-S01 / Revision 1.0

Practice profile

Fieldwork Studio is a Texas-based landscape architecture, urban design and planning practice. We connect public life, ecological performance and project delivery through landscape. Austin is our headquarters; Dallas supports our North Texas work.

Firm measure	As of 12 September 2026
Employees	47 full-time employees; Austin 30 / Dallas 17
Project register	164 total engagements, including 31 active and 133 completed
Annual revenue	\$8,600,000 net service revenue, year ended 31 December 2025
Core services	Landscape architecture, urban design, master planning, site planning, public-realm design, campus planning and community engagement

Portfolio mix

Market	Engagements	Position
Public Realm & Parks	42	Very strong
Higher Education	31	Very strong
Mixed Use	29	Strong
Hospitality	24	Strong
Civic	18	Moderate
Residential	20	Moderate

Counts reflect the management portfolio tally. Thirteen project-register market fields remain uncoded. The 164 total includes active work; it does not mean 164 completed projects.

Delivery model

Fieldwork leads landscape and public-realm design. Civil engineering, hydraulic modeling, structural engineering and specialist environmental permitting are external disciplines. Ecological planting experience should not be treated as an in-house hydraulic engineering qualification.

Leadership & delivery

Elena Marquez, PLA

Managing Principal / Austin / 18 years of experience

Public Realm; Urban Design; Civic; Complex Stakeholder Projects

Daniel Kim, PLA

Principal / Austin / 16 years of experience

Higher Education; Public Realm; Campus Planning; Resilient Landscapes

Maya Thompson, PLA

Principal / Dallas / 15 years of experience

Hospitality; Mixed Use; Urban Design

Noah Williams, PLA

Senior Project Manager / Austin / 11 years of experience

Public Realm; Parks; Municipal Projects; Project Delivery

Priya Shah, PLA

Project Manager / Austin / 8 years of experience

Higher Education; Public Realm; Sustainable Design

How we work

The principal-in-charge stays accountable for design quality and client decisions. A project manager controls scope, consultant interfaces and milestones. Designers support public-space design, documentation and construction-phase review. Team commitments are confirmed at pursuit approval.

Project evidence

The following ten project sheets provide detailed evidence. The index that follows identifies 84 distinct projects, including these ten. Dates indicate the completion of Fieldwork services. Budgets may describe a full development rather than landscape-only work.

FW-P001 / SELECTED EXPERIENCE

Waterloo Commons

Austin, TX / Public Realm & Parks

A 14-acre urban park connecting shaded civic lawns, stormwater gardens and accessible promenades. Fieldwork led landscape design, coordinated municipal reviews and facilitated neighborhood workshops.

Client	Waterloo Development Authority
Services completed	2023-11-15
Scale	14 acres
Construction value	\$48,000,000 / Delivered construction cost
Fieldwork design fee	\$1,420,000 / net fee, excludes subconsultants
Services	Landscape Architecture; Urban Design; Public Engagement

Project contribution

Person	Role
Elena Marquez	Principal-in-Charge
Noah Williams	Project Manager
Lucas Bennett	Designer
Daniel Kim	Resilience Advisor

Expertise

Urban park; Municipal coordination; Green infrastructure; Community engagement

Record: Project Database / Projects / FW-P001. Project-team roles: Project Teams / FW-P001. Values are historical nominal USD.

FW-P002 / SELECTED EXPERIENCE

Eastline Greenway

Austin, TX / Public Realm & Parks

A 4.8-mile greenway linking neighborhoods through flood-responsive trail segments and restored planting corridors. Fieldwork coordinated crossings, habitat planting and community access priorities.

Client	City of Austin
Services completed	2024-11-15
Scale	4.8 miles
Construction value	\$32,000,000 / Delivered construction cost
Fieldwork design fee	\$980,000 / net fee, excludes subconsultants
Services	Landscape Architecture; Trail Planning; Public Engagement

Project contribution

Person	Role
Daniel Kim	Principal-in-Charge
Noah Williams	Project Manager
Priya Shah	Project Designer
Elena Marquez	Stakeholder Advisor

Expertise

Trails; Ecology; Municipal coordination; Community engagement

Record: Project Database / Projects / FW-P002. Project-team roles: Project Teams / FW-P002. Values are historical nominal USD.

FW-P003 / SELECTED EXPERIENCE

Trinity Civic Plaza

Dallas, TX / Civic

A downtown civic plaza with flexible event space, shaded seating and accessible connections to municipal buildings. Fieldwork integrated security, event operations and everyday public use.

Client	City of Dallas
Services completed	2022-11-15
Scale	3.6 acres
Construction value	\$27,000,000 / Delivered construction cost
Fieldwork design fee	\$740,000 / net fee, excludes subconsultants
Services	Landscape Architecture; Urban Design; Public Engagement

Project contribution

Person	Role
Elena Marquez	Principal-in-Charge
Maya Thompson	Design Principal

Expertise

Civic space; Urban design; Public engagement; Municipal client

Record: Project Database / Projects / FW-P003. Project-team roles: Project Teams / FW-P003. Values are historical nominal USD.

FW-P004 / SELECTED EXPERIENCE

Texas Central University Campus Framework

Austin, TX / Higher Education

A phased campus framework aligning new academic districts with pedestrian networks, stormwater systems and long-term landscape investment. Construction value represents the full phased program.

Client	Texas Central University
Services completed	2025-11-15
Scale	210 acres
Construction value	\$110,000,000 / Phased program budget
Fieldwork design fee	\$1,800,000 / net fee, excludes subconsultants
Services	Campus Planning; Landscape Architecture; Resilience Planning

Project contribution

Person	Role
Daniel Kim	Principal-in-Charge
Priya Shah	Project Manager

Expertise

Campus planning; Higher education; Resilience; Long-range planning

Record: Project Database / Projects / FW-P004. Project-team roles: Project Teams / FW-P004. Values are historical nominal USD.

FW-P005 / SELECTED EXPERIENCE

Crescent District

Dallas, TX / Mixed Use

Public streets, retail courtyards and residential amenity spaces for a phased mixed-use district. Fieldwork scope covered the landscape and public realm within a larger building program.

Client	Crescent Development Partners
Services completed	2024-11-15
Scale	26 acres
Construction value	\$185,000,000 / Whole development cost
Fieldwork design fee	\$1,150,000 / net fee, excludes subconsultants
Services	Landscape Architecture; Urban Design

Project contribution

Person	Role
Maya Thompson	Principal-in-Charge
Ethan Cole	Designer

Expertise

Mixed use; Streetscape; Amenity landscapes

Record: Project Database / Projects / FW-P005. Project-team roles: Project Teams / FW-P005. Values are historical nominal USD.

FW-P006 / SELECTED EXPERIENCE

Juniper Hotel & Residences

Austin, TX / Hospitality

Arrival gardens, a pool terrace and shaded pedestrian spaces for an urban hotel and residential program. Building construction is included in the reported construction value.

Client	Juniper Hospitality Group
Services completed	2023-11-15
Scale	5.2 acres
Construction value	\$92,000,000 / Whole development cost
Fieldwork design fee	\$680,000 / net fee, excludes subconsultants
Services	Landscape Architecture; Planting Design

Project contribution

Person	Role
Maya Thompson	Principal-in-Charge
Olivia Chen	Project Manager

Expertise

Hospitality; Guest experience; Roof terraces

Record: Project Database / Projects / FW-P006. Project-team roles: Project Teams / FW-P006. Values are historical nominal USD.

FW-P007 / SELECTED EXPERIENCE

Barton Creek Trail Improvements

Austin, TX / Public Realm & Parks

Trail rehabilitation, accessible entries and erosion-control planting along a heavily used creek corridor. Civil engineering and hydraulic analyses were provided by others.

Client	City of Austin
Services completed	2021-11-15
Scale	2.1 miles
Construction value	\$14,000,000 / Delivered construction cost
Fieldwork design fee	\$510,000 / net fee, excludes subconsultants
Services	Landscape Architecture; Trail Planning

Project contribution

Person	Role
Noah Williams	Project Manager
Elena Marquez	Principal-in-Charge

Expertise

Trail rehabilitation; Accessibility; Erosion control

Record: Project Database / Projects / FW-P007. Project-team roles: Project Teams / FW-P007. Values are historical nominal USD.

FW-P008 / SELECTED EXPERIENCE

Brazos Innovation District

College Station, TX / Higher Education

A research district landscape framework with shared gathering spaces and low-impact drainage corridors. Fieldwork coordinated phased public-space delivery with laboratory development.

Client	Brazos Research Partnership
Services completed	2025-11-15
Scale	68 acres
Construction value	\$160,000,000 / Whole development cost
Fieldwork design fee	\$1,300,000 / net fee, excludes subconsultants
Services	Campus Planning; Landscape Architecture; Urban Design

Project contribution

Person	Role
Daniel Kim	Principal-in-Charge
Priya Shah	Project Designer

Expertise

Research campus; Resilience; Public realm

Record: Project Database / Projects / FW-P008. Project-team roles: Project Teams / FW-P008. Values are historical nominal USD.

FW-P009 / SELECTED EXPERIENCE

Republic District Streetscape

Austin, TX / Public Realm & Parks

A downtown street network with shaded sidewalks, integrated furnishing zones and accessible intersections. Fieldwork led streetscape design and coordinated utility and civil interfaces.

Client	Republic District Partnership
Services completed	2022-11-15
Scale	1.3 miles
Construction value	\$21,000,000 / Delivered construction cost
Fieldwork design fee	\$620,000 / net fee, excludes subconsultants
Services	Landscape Architecture; Urban Design

Project contribution

Person	Role
Elena Marquez	Principal-in-Charge
Noah Williams	Project Manager

Expertise

Streetscape; Municipal coordination; Accessibility

Record: Project Database / Projects / FW-P009. Project-team roles: Project Teams / FW-P009. Values are historical nominal USD.

FW-P010 / SELECTED EXPERIENCE

Hill Country Research Campus

San Marcos, TX / Higher Education

A campus landscape connecting research buildings through native planting, shaded walking routes and outdoor collaboration spaces. Scope included water-conserving establishment strategies.

Client	Hill Country Research Institute
Services completed	2024-11-15
Scale	42 acres
Construction value	\$74,000,000 / Whole development cost
Fieldwork design fee	\$890,000 / net fee, excludes subconsultants
Services	Campus Planning; Landscape Architecture

Project contribution

Person	Role
Daniel Kim	Principal-in-Charge
Marcus Reed	Project Manager

Expertise

Research campus; Native planting; Water conservation

Record: Project Database / Projects / FW-P010. Project-team roles: Project Teams / FW-P010. Values are historical nominal USD.
